

ERA-PG Call for Proposals - Structuring Plant Genomics Research in Europe

Annex for applicants in Denmark to ERA Plant Genomics' (ERA-PG) Call

Partners

- Danish Research Council for Technology and Production Sciences (FTP)
- Danish Ministry of Food, Agriculture and Fisheries

Budget frame

The Danish Research Council for Technology and Production Sciences (FTP) and the Danish Ministry of Food, Agriculture and Fisheries are pleased to announce that max. **€ 2 million** has been allocated for ERA-Plant Genomics' call: "Structuring Plant Genomic Research in Europe".

Eligibility and national funding modalities

The budget is only available for Sub-Call A. Applications will only be met if the application contributes to the purpose of promoting Danish research in a European context. Funding can be awarded to researchers working with basic research within production and technology sciences, focusing on application-oriented solutions to problems or new ways of meeting the needs of society. All researchers who have obtained a PhD or similar qualifications via their research may apply for this funding. Funding may only be awarded for specific delimited research activities. Thus, funding will not be awarded to permanent activities, such as fixed operating expenses and permanent position salaries. It is not possible to award funding for already completed activities.

Research topics and themes, application and evaluation of applications will follow the procedure that is defined in ERA-PG's call text. Priority will be given to Collaborative Research projects. Once all evaluation steps have been completed, the final funding decision rest with the Danish Research Council for Technology and Production Sciences and the Danish Ministry of Food, Agriculture and Fisheries.

Intellectual Property Rights

Research work may produce intellectual property rights (IPR). Applicants shall pay special attention to the rights of using research results and making relevant agreements. It is strongly recommended that applicants agree on (i) the rights of ownership and use of the results as well as (ii) contents of the research and the mutual rights and obligations of the parties. These agreements should be made in writing.

National Call Coordinator

Please, direct any inquiries regarding the ERA-PG call to the secretariat for the Research Council for Technology and Production Sciences at the Danish Research Agency (tel.: 3544 6200, e-mail: forsk@forsk.dk).

Disclaimer

Kindly note that the formal commitment of the Danish Research Council for Technology and Production Sciences and Danish Ministry of Food, Agriculture and Fisheries is pre-conditional to the approval in 2006 of the Danish funding authorities.
